Automobile Equipment

For Automobile Equipment, JTAC recommends a mobile printer, laptop that meets minimum requirements, and a HandHeld Products, Inc. 4600r scanner. Other accessories you may wish to consider, when writing funding requests / grant proposals, are stands and power supplies.

Laptops

| Recommended Specifications | Price(s) | Makes / Models |
|----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.6Ghz Processor, 1GB RAM, Windows XP Professional or Windows Vista. | \$1159.01 For Dell Latitude D520 Laptop Indiana Standard Configuration, as low as \$650 for machines that meet requirements, priced online. | Dell Latitude D520 Laptop Indiana standard configuration, Catalog number 84 RC976481 or any laptop that meets system requirements. (eCWS has been tested with Windows Vista) |

Mobile Printer

| Recommended Specifications | Price(s) | Makes / Models |
|--------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Thermal or Inkjet Printer that meets mobile requirements. Any Windows® compatible printer can be used. | <u>Canon PIXMA</u> \$300 <u>Pentax PocketJet3</u> \$285 ea – Available thru Chris Havens at Data Ltd., Inc as listed below. | <u>Canon PIXMA</u> iP90 Printer (Inkjet) <u>Pentax PocketJet3</u> (Thermal Printer) |

Inkjet Printers, such as the Canon PIXMA, will require inkjet refills and standard 8" X 11" paper. Thermal printers, such as the Pentax PocketJet3, require rolls of perforated thermal printer paper. Cost per-page between inkjets and thermal printers is roughly comparable: \$0.08 per-page for a Pentax thermal printer, \$0.04 per-page for a Canon PIXMA. Thermal printers have minimal moving parts, and may prove more reliable.

Power Supplies

| Recommended Specifications | Price(s) | Makes / Models |
|----------------------------------------------------------------------|-------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| Any cigarette-adaptor or other power supply that will deliver 12V DC | <u>Belkin</u> , \$45.00 <u>APC</u> , \$40.00 | <u>Belkin</u> 300 Watt DC/AC Inverter 2-Outlet <u>APC</u> 150-Watt DC to AC Power Inverter 1-Outlet |

Scanner

| Recommended Specifications | Price | Makes / Models |
|------------------------------------------------------------------------------|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| At this time, eCWS is only compatible with the HandHeld Products model 4600r | \$282.00 | <p>HandHeld Products 4600r 2D Imager Scanner - \$282.00 ea. including shipping. Available at this price using promotion code: 20154BV Contact:</p> <p>Chris Havens, Data Ltd., Inc. 703 Data Ltd Pkwy La Porte IN 46350 800-526-1299 ext. 716 219-362-1937 (fax) c.havens@data ltd.com</p> |

Recommended Accessories

| Recommended Specifications | Price | Makes / Models |
|-------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Mounts for printer and laptop are recommended. You may wish to obtain a rack / holder for paper reams / rolls and printer supplies. | Varies by manufacturer / custom mount builder | There are many commercially-available mounting systems, such as RAM®, available, and many agencies use local sources. |

Motorcycle Equipment

For Motorcycle Equipment, the Software has been designed for this specific equipment. Purchasing non-standard equipment will result in the scanner not operating.

- Motorcycle Equipment – Per Officer: - Price as of May 2007
 - # Needed, Unit Type - (Dell QPA # in Parenthesis) Price
 - 1, Intermec CN3 – **(A1151603)** \$1,735.95
 - Windows Mobile 5
 - 128MB RAM / 128 MB ROM
 - Verizon EVDO Radio
 - Bluetooth
